SUMMARY

A Software Engineer with over 7 years of experience in Full-Stack Development and 2 years with Infrastructure as Code (IaC).

EXPERIENCE

PROFESSIONAL SERVICES CONSULTANT

PROGRESS | MAR 2022 - NOV 2023

- Implemented scalable and efficient cloud-based solutions using Terraform, Chef, and Jenkins.
- Provided Chef software customer training, including DevOps fundamentals, Ruby fundamentals, Infrastructure as Code, source control, test-driven development with unit and integration testing using InSpec, and pipeline creation using Jenkins.
- Assisted in developing new Chef content and contributed to the design and usability of a new on-demand learning and certification platform.
- Collaborated with both international and domestic customers to assess their current Chef configurations, develop solutions, and implement fixes for identified issues.

SENIOR FULL STACK DEVELOPER

CADENCE DESIGN SYSTEMS, ACQUIRED POINTWISE, INC. | FEB 2015 - JAN 2022

- Converted legacy website to modern, responsive web application and content management system utilizing JavaScript, Node.js, Express.js, Bootstrap 4, and MongoDB.
- Made site speed adjustments that caused a 9% increase in traffic YOY 2019-2020, and a 27% increase in traffic YOY first quarter 2020-2021.
- Consulted on the design and development of an online user manual and Teachable courses.

STEPHANIE THOMPSON

SOFTWARE ENGINEER

VOLUNTEER

Women Who Code DFW

2019 - 2024

Helped attendees sign in at in-person events and provided photography.

HOBBIES

Photography, Hiking, Gardening, Music, Crochet

PROJECTS

ZEST - DALLAS SOFTWARE DEVELOPER GROUP COHORT

MAR 2024 - APR 2024

Zest is a grocery management tool with a built-in ingredient tracker, recipe integration, and macro calculator. The front end was built with React Native, while the back-end was developed with Python, Django, and PostgreSQL. See a walkthrough of how we built it here: https://youtu.be/ex5MFr6GYU0

Mini Workshop: Sending Email with PHP - Women Who Code

OCT 2019

I created and presented this beginner-level workshop covering the details of how SMTP works, how to write a form in PHP, and how to script the request that sends responses to a Gmail account. A full recording of the course can be seen here: https://youtu.be/WbOeuikxG1E
